

# Institute of Mathematics and Informatics Bulgarian Academy of Sciences

To the Organizing Committee of the  
Spectral Analysis for Quantum Hamiltonians Conference  
Centre International de Rencontres Mathématiques (CIRM),  
France

Dear Organizing Committee,  
Esteemed colleagues,  
Dear friends,

On behalf of the Institute of Mathematics and Informatics at the Bulgarian Academy of Sciences, I extend our warmest congratulations on the convening of the Conference on Spectral Analysis for Quantum Hamiltonians.

This conference, dedicated to the memory of the late Georgi Raikov, holds a special place in our hearts. Georgi was not only a revered colleague but also a dear friend to many of us at our institute. His contributions were highly appreciated, and his absence is deeply felt. The special conference session organized in his honour is a fitting tribute to a man whose work and character left an indelible mark on us all.

The objective of this conference – to bring together leading experts alongside promising young specialists in a collaborative and intellectually stimulating environment – is commendable. It is our firm belief that the fusion of diverse approaches, viewpoints, and expertise can catalyze groundbreaking advancements in the field. We are particularly enthusiastic about the opportunities for cross-disciplinary interaction, uniting specialists in various mathematical tools with those focused on physical models.

We are confident that this conference will not only serve as a fitting homage to Georgi Raikov but will also pave the way for new perspectives and innovations in the study of quantum Hamiltonians. The Institute of Mathematics and Informatics proudly supports this endeavour and eagerly anticipates the fruitful outcomes that will undoubtedly emerge from these collaborative efforts.

Wishing you a successful and inspiring conference,

Sofia, Bulgaria  
January 15, 2024

Prof. Peter Boyvalenkov  
**Director of the Institute of Mathematics and Informatics,  
Bulgarian Academy of Sciences**
